

Weston Infant and Junior Academies The Weston Federation

Accessibility Plan – 2024-27

Background to Accessibility strategy and Purpose of the plan

This Accessibility Policy and Plan are drawn up in compliance with current legislation and requirements as specified in schedule 10 relating to Equality Act 2010. School Governors are accountable for ensuring the implementation, review and reporting on progress of the Accessibility plan over a prescribed period.

Weston Infant and Junior Academies (The Weston Federation) are committed to providing an accessible environment which values and includes all staff, parents, pupils and visitors. We will challenge negative attitudes about disability and accessibility and strive to develop a culture of awareness, tolerance and inclusion.

Weston Infant and Junior Academies (The Weston Federation) will ensure accessibility of provision for all pupils, staff and visitors by formulating a three-year accessibility plan. This plan will be updated annually.

The Action Plan

There are 3 different areas to be considered within the plan.

1. Improving Education and related activities – We will continue to seek and follow the advice of Local Authority services such as specialist advisory teachers/health professionals, making reasonable adjustments as necessary. Through monitoring and Continuous Professional Development, we aim to enhance staff knowledge, skills and understanding to promote excellent teaching and learning for all

pupils in our school. We aim to meet every child's need within mixed ability, inclusive classes with appropriate support where required. We ensure that the wider curriculum of the school is available to all pupils such as participation in after school clubs, school visits etc.

- 2. Improving the physical environment We will take account of the needs of pupils and visitors with physical difficulties and sensory impairments when planning and undertaking future improvements/refurbishments of the school buildings and grounds. We have modern accessible buildings with ramps/lifts where necessary. In exceptional cases we add specialist facilities as necessary.
- 3. Improving the provision of information The school will make itself aware of available local services and information. Information will be provided in alternative formats where required or requested. Where a particular need is identified we will provide the relevant support and materials/resources with advice from appropriate professionals.

The three-year Action Plan for **physical accessibility** relates to the access audit of the school which is undertaken regularly. This will be re visited on an annual basis prior to the end of the plan. The Governors have regard to accessibility termly in the Health & Safety Committee. Information about the Accessibility Plan is published on the schools websites and in the Governors Annual Report.

1. Improving Education/Access to the curriculum

In order to increase the extent to which disabled pupils can participate in the school's curriculum, the following practice is in place in addition to the identified targets below:

- Senior Leaders identify training needs in the Spring Term and liaise with SENCO
- Transition meetings held and transition plan created for children with SEN/Disabilities.
- Register of all pupils with medical needs accessible in ALL classrooms and updated when new pupils are added.
- Care plans created with parents along with Health Visitor/school nurse where appropriate and reviewed annually
- All venues and transport are assessed for suitability.
- Risk assessments completed.
- Regular review of PE policy. Pupils supported as required. Liaison with parents.
- Adaptations made where necessary to support individual pupils.
- Advice from the occupational therapy service is sought in relation to specialist seating needs, fine and gross motor difficulties etc.
- Furniture and equipment is adapted to support the learning process.
- Toilet areas will be of an appropriate size to the age of the children, fitted with rails and steps provided where necessary to provide disabled access.
- Outreach' support accessed where necessary and any training opportunities provided attended.
- SENCO and Site Manager liaise with staff to compile PEEPs where required.
- Individual evacuation plans are created for disabled pupils where necessary.

• Site Manager monitors and evaluates the effectiveness of plans regarding evacuation procedures.

1						
Targets	Strategies	Timescale	Responsibility	Success Criteria		
To provide support to pupils with communication difficulties in order to access the curriculum	Training and advice to support pupils identified with communication & Interaction as an area of need. Further in depth training of attention Autism programme to be attended by key staff member.
